

## Environmental Policy Statement

Boston Energy and Boston Renewables are part of the Bostonair Group. The main activities of these companies are;

- The sourcing, assessment and supply of suitably qualified and experienced personnel for clients within the energy industry;
- statutory inspection of fitted components and equipment requiring periodic statutory inspection within the turbine, as per local legislation and statute, all for contracts throughout the UK and overseas.
- Training in the safe use and servicing of turbine mounted lifting devices and truck mounted loaders.
- Renewable Energy solutions (including maintenance and repair) to commercial customers including Solar PV Arrays, Battery Storage Systems, Electric Vehicle charge points.

The Companies' environmental impacts during the undertaking of their services have been identified, reviewed and controlled as far as is reasonably practicable. By setting environmental objectives which are regularly monitored and reviewed at management meetings, we aim to reduce these impacts further.

The Companies are committed to the protection of the environment including prevention of pollution, the reduction, reuse and recycling of waste products and a reduction in carbon emissions.

All relevant legislative requirements have been documented within the environmental legal register and will be monitored and updated as appropriate. The Companies are committed to fulfil their compliance and contractual obligations for the environment.

This environmental policy statement forms part of the Companies' Integrated Management System (IMS) for which we have commitment for continual improvement.

This Policy Statement will be reviewed on an annual basis or sooner if the need arises. It will be shared throughout the business and available to interested parties upon request.

Signed:

Mark Parkes  
 Managing Director
